Benefits of Unidrain

- Unidrain is positioned neatly against the wall, no longer do you have to stand on a cold grate
- Available in a fully range of sizes
- Variety of different grate styles to choose from
- One way floor slopes, allowing for stylish large tiles and stone slabs
- Tiles can be flush with the drain
- Easy to clean
- Easy installation into wooden and concrete floors

Luxury with Unidrain

Unidrain has already been specified into several luxury residential projects including:
